

	<b>Affix Aluminum Foil Product Labels</b>	<b>DOC NBR:</b> TEC-110
		<b>APRVD:</b> JMC 09 NOV 14
<b>Service Instruction</b>		<b>PAGE 1 OF 1</b>

## **1.0 SCOPE**

- 1.1 Instructions for the installation of aluminum foil product labels on an RTC or LCI furnace.

## **2.0 EQUIPMENT REQUIRED**

- 2.1 Labels, Aluminum foil
- 2.2 Wet/dry sandpaper, fine
- 2.3 Isopropyl alcohol

## **3.0 Surface Preparation**

- 3.1 If installing labels on a newly or previously painted surface, use wet-dry sandpaper to lightly break the surface where the label is to be applied.
- 3.2 If surface is extremely dirty, use window cleaner (Windex) or other suitable cleaner to clean surface.
- 3.3 As the final preparation step, clean surface of all residue using isopropyl alcohol.

## **4.0 Surface Preparation**

- 4.1 Remove label protective backing
- 4.2 Align and press label in place.
- 4.3 Use smooth side of label backing to press and smooth label.
